

**Safety Data Sheet**  
**LIQUITINT® PINK AL**

Version 1.0

Revision Date: 12/19/2022

**SECTION 1. PRODUCT AND COMPANY IDENTIFICATION****Product name** : LIQUITINT® PINK AL**Recommended use of the chemical and restrictions on use****Recommended use** : Colouring agent**Supplier or Repackaging Details****Company** : Univar Solutions Brasil Ltda  
**Address** : Rua Arinos, 15  
Parque Industrial Anhanguera – CEP: 06276-032  
Brazil**Manufactured By** : Milliken & Company**Emergency telephone number** : (19) 3874-7000 e Ambipar 0800 117 2020**Additional Information:** : Phone: (19) 3874-7000  
Fax: (19) 3874-7004  
Email: ehsbrasil@univarsolutions.com**SECTION 2. HAZARDS IDENTIFICATION****Classification according to GHS BR (ABNT NBR 14725-2)**

Not a hazardous substance or mixture.

**GHS label elements in accordance with ABNT NBR 14725 Standard**

Not a hazardous substance or mixture.

**Additional Labelling**

The following percentage of the mixture consists of ingredient(s) with unknown acute oral toxicity: 99.9999 %

The following percentage of the mixture consists of ingredient(s) with unknown acute dermal toxicity: 99.9999 %

The following percentage of the mixture consists of ingredient(s) with unknown acute inhalation toxicity: 99.9999 %

The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 99.9999 %

**Other hazards which do not result in classification**

None known.

**SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS****Substance / Mixture** : Mixture**Components**

No hazardous ingredients

**SECTION 4. FIRST AID MEASURES****General advice** : Do not leave the victim unattended.

## Safety Data Sheet

### LIQUITINT® PINK AL

Version 1.0

Revision Date: 12/19/2022

|                                                             |                                                                                                                                                                                                                                                                                                   |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| If inhaled                                                  | : If symptoms persist, call a physician.<br>Move to fresh air in case of accidental inhalation of fumes from overheating or combustion.                                                                                                                                                           |
| In case of skin contact                                     | : Take off contaminated clothing and shoes immediately.<br>Wash off with soap and water.<br>If symptoms persist, call a physician.<br>Wash contaminated clothing before re-use.                                                                                                                   |
| In case of eye contact                                      | : Remove contact lenses.<br>Protect unharmed eye.<br>If eye irritation persists, consult a specialist.<br>Flush eyes with water as a precaution.<br>Keep eye wide open while rinsing.                                                                                                             |

| Most important symptoms and effects, both acute and delayed | : None known.                                                                                                                                                                                                                                                                                     |

#### SECTION 5. FIREFIGHTING MEASURES

|                                               |                                                                                                                                                     |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                           |
| Unsuitable extinguishing media                | : High volume water jet                                                                                                                             |
| Hazardous combustion products                 | : No hazardous combustion products are known                                                                                                        |
| Specific extinguishing methods                | : Standard procedure for chemical fires.<br>Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus for firefighting if necessary.                                                                            |

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

|                                                       |                                                                                                                                                                    |
|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Methods and materials for containment and cleaning up | : Neutralize with chalk, alkali solution or ammonia.<br>Wipe up with absorbent material (e.g. cloth, fleece).<br>Keep in suitable, closed containers for disposal. |
|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|

#### SECTION 7. HANDLING AND STORAGE

|                                                 |                                                                                                      |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | : Normal measures for preventive fire protection.                                                    |
| Advice on safe handling                         | : For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the |

## Safety Data Sheet

### LIQUITINT® PINK AL

Version 1.0

Revision Date: 12/19/2022

|                             |                                                                                                     |
|-----------------------------|-----------------------------------------------------------------------------------------------------|
| Hygiene measures            | : application area.                                                                                 |
| Conditions for safe storage | : General industrial hygiene practice.                                                              |
|                             | : Electrical installations / working materials must comply with the technological safety standards. |
| Materials to avoid          | : No materials to be especially mentioned.                                                          |
|                             | : Do not store near acids.                                                                          |

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

### Personal protective equipment

|                          |                                                                                                                                                |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection   | : No personal respiratory protective equipment normally required.<br>In the case of vapour formation use a respirator with an approved filter. |
| Eye protection           | : Safety glasses                                                                                                                               |
| Skin and body protection | : Protective suit                                                                                                                              |

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                               |                       |
|-----------------------------------------------|-----------------------|
| Appearance                                    | : liquid              |
| Colour                                        | : dark red            |
| Odour                                         | : slight, sweet       |
| Odour Threshold                               | : No data available   |
| pH                                            | : 3 - 4               |
| Freezing Point (Melting point/freezing point) | : < 0 °C (< 32 °F)    |
| Boiling Point (Boiling point/boiling range)   | : > 100 °C (> 212 °F) |
| Flash point                                   | : Not Flammable       |
| Evaporation rate                              | : No data available   |
| Flammability (solid, gas)                     | : No data available   |
| Upper explosion limit                         | : No data available   |
| Lower explosion limit                         | : No data available   |
| Vapour pressure                               | : No data available   |
| Relative vapour density                       | : No data available   |
| Relative density                              | : 1.02                |
| Density                                       | : No data available   |
| Solubility(ies)                               | : No data available   |
| Water solubility                              | : completely soluble  |
| Solubility in other solvents                  | : No data available   |
| Partition coefficient: n-octanol/water        | : No data available   |

**Safety Data Sheet**  
**LIQUITINT® PINK AL**

Version 1.0

Revision Date: 12/19/2022

Auto-ignition temperature : No data available  
Thermal decomposition : No data available

---

**SECTION 10. STABILITY AND REACTIVITY**

Reactivity : Stable under recommended storage conditions.  
Chemical stability : No decomposition if stored and applied as directed.  
Possibility of hazardous reactions : No hazards to be specially mentioned.  
Conditions to avoid : Keep away from heat, flame, sparks and other ignition sources.  
Incompatible materials : None known.

---

**SECTION 11. TOXICOLOGICAL INFORMATION****Further information****Product:**

Remarks: No data available

---

**SECTION 12. ECOLOGICAL INFORMATION****Ecotoxicity****Product:**

Further information

The following percentage of the mixture consists of ingredient(s) with unknown hazards to the aquatic environment: 99.9999 %

**Persistence and degradability**

No data available

**Bioaccumulative potential**

No data available

**Mobility in soil**

No data available

**Other adverse effects****Product:**

Additional ecological information : No data available

**Safety Data Sheet**  
**LIQUITINT® PINK AL**

Version 1.0

Revision Date: 12/19/2022

**SECTION 13. DISPOSAL CONSIDERATIONS****Disposal methods**

- Waste from residues : Dispose of in accordance with all applicable local, state and federal regulations.
- Contaminated packaging : Comply with the applicable regulations for the disposal of solid waste. Disposal should be carried out in accordance with official legislation.

**SECTION 14. TRANSPORT INFORMATION****International Regulations****IATA-DGR**

Not regulated as a dangerous good

**IMDG-Code**

Not regulated as a dangerous good

**National Regulations****ANTT**

Not regulated as a dangerous good

**Special precautions for user**

Not applicable

**SECTION 15. INFORMATION ABOUT REGULATIONS**

- Specific regulations for the chemical product: : Brazilian local regulations: ABNT NBR 14725 Standard  
Federal Decree No. 2,657, of July 3, 1998 – Promulgates ILO Convention No. 170, on Safety in the Use of Chemicals at Work, signed in Geneva, on June 25, 1990.  
Ordinance No. 229, of May 24, 2011 - Amends Regulatory Standard No. 26  
Resolution No. 5232, of December 14, 2016 - Approves the Supplementary Instructions to the Land Regulations for the Transport of Dangerous Goods, and makes other provisions.

**SECTION 16. OTHER INFORMATION****Further information**

- Revision Date : 12/19/2022
- Legacy SDS:** : 100000029971

**Material number:**

16194779, 16194979, 16194838, 16123510, 16123509

## Safety Data Sheet

### LIQUITINT® PINK AL

Version 1.0

Revision Date: 12/19/2022

Other information : This MSDS was prepared based on current knowledge on the proper handling of the product and under normal conditions of use, according to the application specified on the packaging. Any other form of use of the product that involves its combination with other materials, in addition to forms of use other than those indicated, are the responsibility of the user. It is cautioned that the handling of any quantum substance requires prior knowledge of its dangers by the user. In the workplace, it is up to the company that uses the product to promote the training of its employees regarding the possible risks arising from exposure to the chemical product.
